

Learn how to save money on your energy bills!

You can get answers to your energy questions 24 hours a day, 7 days a week. If you have access to a computer and Internet service, LES' Business Energy Depot, available at www.les.com, offers LES small and medium-sized business customers a powerful source of energy information services including:

- An online, do-it-yourself, password-protected energy audit that gives you a personalized report on your company's annual energy use and cost. And, provides you customized recommendations for cutting energy consumption and expense.
- An Energy Library that provides comprehensive energy information in easy-to-understand terms and illustrations.
- An e-mail link to an LES Energy Advisor for personalized expertise about all aspects of your company's energy use.

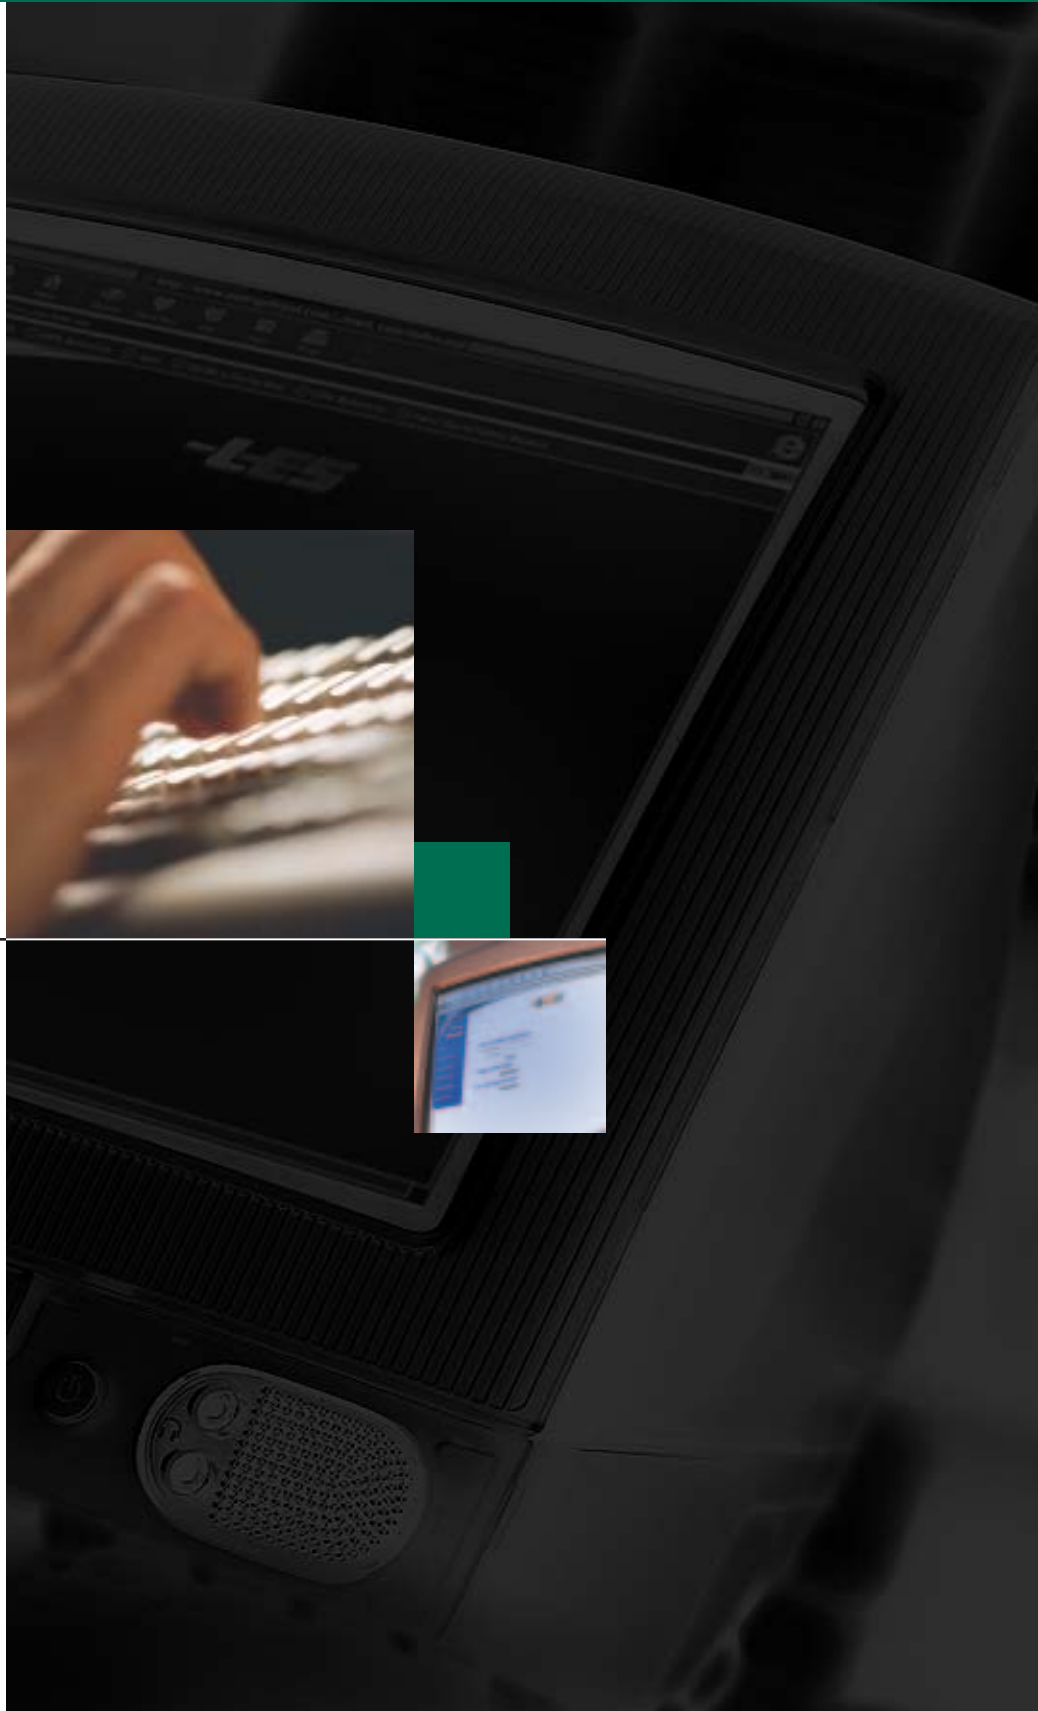

It's easy, it's free, and at your convenience...

Simply go to the LES Web site at www.les.com and click on the Business Energy Depot button. When you do that, you give yourself the power of information...the information you need to make effective and wise decisions about your company's energy use and technology choices.

Business Energy Depot

Do-it-yourself 24 hours
a day, 7 days a week.

Business Energy Depot

All of the information you need to make effective and wise decisions about your company's energy use and technology choices.
